

Tpa  
Willingness to Serve  
Mail in Form

The Tennessee Perfusion Association is served by a seven member Board of Directors made up of Perfusionists from around the state. These directors are volunteers who donate their time in helping with the operations of the TPA. It is important that all regions of the state be represented but more important is finding volunteers who will dedicate their time to the organization.

If you are willing to volunteer your time to serve the TPA or if you have any questions please contact the current board of directors.
